## SKILLS

Languages: SQL, CPP, Python, HTML, Java, CSS  
Frameworks: Hadoop, Spark, Kafka  
Tools/Platforms: GitHub, VS Code, Power BI, Microsoft Excel, Tableau  
Data Science Skills: Data Analysis, Data Cleaning, Data Visualization  
Soft Skills: Adaptability, Problem-Solving, Teamwork

## EDUCATION

|                                                                                          |           |
|------------------------------------------------------------------------------------------|-----------|
| <b>NMIMS University</b> MBA-Operations & Data Science                                    | 2026-2028 |
| <b>Lovely Professional University</b> BTech-Computer Science and Engineering, CGPA: 7.55 | 2022-2026 |
| <b>Delhi Public School</b> Intermediate, Percentage: 85%                                 | 2021-2022 |
| <b>Delhi Public School</b> Matriculation, Percentage: 82%                                | 2019-2020 |

## INTERNSHIP

|                                                                                                                                                     |          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| <b>Software Development Intern</b>   LIVWELL, Noida                                                                                                 | Jun 2024 |
| Contributed to the development of <b>Livwell'sB2B corporate platform</b> , focusing on improving design, usability and user-experience performance. |          |
| Assisted in analyzing requirements, gathering insights, and supporting the implementation of modern technologies.                                   |          |
| Collaborated with team member to enhance workflows and ensure smooth project execution and improve overall product functionality.                   |          |
| Actively participated in meetings, providing suggestions and learning from discussions with senior professionals.                                   |          |
| Gained practical experience in a fast-paced environment, strengthening problem-solving, teamwork, and adaptability skills.                          |          |
| <b>Data Science &amp; Analytics Intern</b>   Amdox Technologies, Bengaluru, Remote                                                                  | Nov 2025 |
| Worked on real time data projects involving data cleaning, analysis and machine learning.                                                           |          |
| Assisted in building data models, visualizations and automated reports to support business decisions.                                               |          |

## PROJECTS

Amazon Sales Dashboard | SQL, Power BI, Tableau

- Built a comprehensive dashboard to track Amazon's sales performance across four years (2011–2014)
- Processed and analyzed data using SQL to calculate key total sales, orders, profit, and average profit margin.
- Identified top-performing products and categories uncovering sales patterns and profitability insights.
- Helped business teams make better decisions using clear data insights for measurable improved results.
- Incorporated interactive filters and drill-downs enabling users to analyze performance by region, category, and profit.

Smart Task Management System | Java, MySQL, HTML, CSS, JavaScript

- Developed a web-based task management platform for tracking and assigning tasks.
- Designed relational database schema and optimized SQL queries for faster retrieval.
- Implemented user authentication, task prioritization, and progress tracking modules.
- Applied OOP principles and DSA concepts to build scalable and maintainable code.
- Developed REST APIs and integrated frontend with backend services.

## CERTIFICATIONS/CERTIFICATES

|                                                               |          |
|---------------------------------------------------------------|----------|
| Deloitte Australia Data Analytics Job Simulation on Forge     | Aug 2026 |
| Foundation of Data Science   Google                           | Mar 2025 |
| Cloud Computing   NPTEL                                       | Nov 2024 |
| Data Analysis with Tableau                                    | Oct 2024 |
| Data Structures and Algorithms - Self Paced   Geeks for Geeks | Jul 2024 |
| Algorithms Specialization   Stanford University               | May 2024 |
| Programming in C++: A Hands-on Introduction Specialization    | Apr 2024 |
| Introduction to Artificial Intelligence (AI)   IBM            | Dec 2023 |

## ACHIEVEMENTS

LeetCode  
Earned a badge for solving challenging problems and showing strong logical thinking ability.  
HackerRank  
Achieved a 5-star rank for consistent and overall performance.  
Britannia Nutrition Foundation [CDP]  
Completed a 38-day community development project and promoted social welfare.
